Additional Information

Important announcement from the NMC:

We'll be trialling some of the new CBT questions which will help us determine the pass mark for the new tests in preparation for the new ToC going live in April 2021.

To help us set a pass mark, candidates taking the current adult nursing CBT will complete an additional 10 questions. These questions will be unscored, this means they will not count towards their CBT result. We will use the results of the questions to help set the pass mark for the new CBT which is introduced in April 2021.

We are grateful for candidates who will be completing the additional 10 questions; we appreciate that it means more questions, however we are confident that candidates will have sufficient time.
